COMPANY INFORMATION

THE STORY THEATRE COMPANY from Victoria, British Columbia began touring across Canada and The United States in 1981. Since those early days Story Theatre has been traveling from coast to coast visiting schools and communities and sharing its infectious blend of storytelling, music, and games. The company receives rave reviews wherever it plays ... and is always invited to return as soon as possible. The simple imaginative staging of traditional folklore, fairy tales, and legends brings well-known stories to life in a style that is fun for everyone from the younger ones in the front rows through the upper Elementary kids, as well as for the teachers and adults who have come along with them. The music and storytelling games lift the performance beyond the ordinary and make it a truly memorable event that will keep the audience enthralled, entertained, and wishing for more. Besides traveling through almost every Province in Canada, with notable stops at a number of Children's festivals and several appearances at the National Arts Centre in Ottawa, this professional troupe from Victoria is also becoming well-known along the Eastern seaboard from Florida to Washington, DC to New York City

Artistic Director JIM LEARD continues his long standing tradition of "getting the message across" while creating shows filled with warmth, humour, and respect for the audience. Jim has been involved in BC Arts and Education since graduating from the University of Victoria in 1970 and is an accomplished writer, director, educator and actor. He spent several years touring to the schools with Company One and Bastion Theatre, taught Children's Theatre and Creative Drama classes, developed workshops for ABCDE conferences, worked in collaboration with the Royal British Columbia Museum, and has held workshops across the country. He has taught at The National Theatre School of Canada, and had his work showcased internationally over the past 30 years. He continues to write stories and poems for young people and can often be found in local classrooms as a storyteller spinning tales old and new.

"...the company is a storytelling group that exudes fun and excitement. The social and educational values are naturally a part of what we create but first and foremost it has to be entertaining... I figure if I have a good time putting it together then the audience will have a good time too"

Jim Leard (BFA, Univ. of Victoria, MA, Northwestern University) works as a writer, actor, producer and director and is the creator and Artistic Director of the internationally acclaimed Story Theatre Company. (1981). Teaching credits include the University of Victoria, The National Theatre School and The Canadian College of Performing Arts.

Jim began at Theatre Calgary in 1970/71 working with Christopher Newton, Joel Miller, Bill Webster, Paddy Armstrong and Francis Hyland throughout a season in which he had the opportunity to work backstage, to stage manage and to perform. The interest grew until the company was performing across Canada and into the United States with notable stops at The Smithsonian's Discovery Theatre and The Wolftrap Children's Festival.

Synopsis of fables, Fools & fantasy

This performance is all about the elements of stories – how to make stories come alive with language, actions, and creative new perspectives on familiar fables and stories. This outline is for a typical show but stories are always being added and changed to suit the season and the group setting. The actors begin by telling an Aesop Fable chosen by the audience, then a participatory circus story, followed by *The Wind and the Sun*, another Aesop Fable, including a few audience members in the dramatic telling of the fable.

The Wind and The Sun

It seems that years ago the wind and the sun had an argument. The wind bragged that he was stronger than the sun. The wind and the sun have a contest to see who is stronger and able to make a man remove his coat .

Illustrations from [Alice and Martin Provensen Aesop's Fables](#)

Illustrating the elements of storytelling, the actors begin to tell the story of the *Three Billy Goats Gruff*. This traditional tale from Scandinavia is first told with the bare bones of the story. Adjectives are added to create a more descriptive story. Then the actors add action verbs and emotions to very physically demonstrate the elements of a story making it rich and multi-dimensional.

Poems also tell stories and the actors perform *THERE ARE MONSTERS IN MY ROOM* to illustrate. The performance then moves to the One Word Story Game and the Phrase Game illustrating how much fun it is to play with words and language, closing with the Nursery Rhyme Musical Revue – singing a nursery rhyme in various musical formats.

Sing a Song of Sixpence By Mother Goose

Sing a song of sixpence,
A pocket full of rye,
Four and twenty blackbirds
Baked in a pie.

When the pie was opened
The birds began to sing—
Wasn't that a dainty dish
To set before the king?

The king was in the counting-house
Counting out his money,
The queen was in the parlor
Eating bread and honey,

The maid was in the garden
Hanging out the clothes.
Along came a blackbird
And snipped off her nose.

The cornerstone of the International Storytelling Center is a belief in a single, immutable principle of life—storytelling. People crave, remember, and honor stories. And now, after years of scientific research in 17 different fields, analysts conclude that storytelling is our most powerful tool for effective communication.

[Jay O'Callahan](#) takes a bare stage and single-handedly transforms it into a dynamic and sensitive world filled with compelling characters. His solo performances at Abbey Theatre in Dublin, National Theatre Complex in London, the Olympics, Lincoln Center, Boston Symphony Orchestra and other theaters throughout the world have been applauded by the media, including The Boston Globe, The Washington Post and Entertainment Weekly. The Associated Press trumpeted him as "a theater troupe inside one body." Time Magazine dubbed Jay "a genius."

STORY WRITING ACTIVITIES

STORY STARTS – A WAY TO HELP STUDENTS BEGIN A STORY

Students sometimes find it hard to start a story. Here are two story starts that might help:

1. The sky was blue but Sam saw some dark clouds ahead. Just as he got home he noticed.....
2. Kayla heard a very strange sound as she walked down the hall. She looked behind her and

You can use story starts with the whole class and ask students to contribute one sentence at a time writing each sentence on the board.

THE POWER OF ACTIVE VERBS

1. Write two sentences on the board that describe an activity:

Going fast was exciting.

The sound the sled made on the snow was sort of a whizzing sound.

2. Demonstrate how an active verb adds excitement to the sentence

We sped down the hill on our magic carpet.

The sled sizzled as it went down the hill.

Ask students to work on creating some descriptions of activities using active verbs.

STORY DICE

Create a story by rolling three story dice, use the pattern on the following page. You need three dice per student, one for each of the three main elements of a story - character, setting and problem. Fill in each square appropriate for that die before taping it together. Card stock works well.

Examples:

Character die - troll, king, frog, etc.

Setting die - swamp, forest, city street, etc.

Problem die - mom's diamond ring sucked up by vacuum cleaner, trapped, lost, etc.

Children then roll all three dice and start their story using the things that come up. This, like the story starts, may help students begin to create a story. These could also be used to generate impromptu skits.

Story Dice

Cut around outside edges only

Fill in each square

Character cube - i.e. dwarf, mother, giant, king, etc.

Problem cube - can't find way home, fire, etc.

Location cube - swamp, city street, kitchen, etc.

Great Big Words by Michael Mark & Tom Chapin
© 1992 HCD Music & The Last Music Co. (ASCAP)
from Billy The Squid sample clip #1 <http://www.cdbaby.com/cd/gadfly804>

When I was a little kid, a "diminutive juvenile,"
I liked my folks to read to me, I was an "eager bibliophile."
Now I love words for how they sound
And how they "communicate."
Perhaps I should explain myself, that is, "elucidate."
Great big words, I like big words.
Letter by letter, the bigger the better
Great big words. La la la la la la la la la!

Now maybe you're "adept" at sports or "excellent" at school,
Maybe you're "vainglorious,"
Which means you think you're cool.
But give me a "massive ideogram,"
A big word to make my point.
When you can "verbalize" yourself
You can really rock the joint.
Great big words, I like big words.
I get a thrill out of every syllable
Great big words.

My word of the week last week was "unique."
People thought I was one of a kind.
When my word of the day was "distingue"
People said I was very refined.
But they look at me like I'm an alien
When I say things like "sesquipedalian."
But what, me worry? I can't go wrong
With a word that's a foot and one half long.

sesquipedalian

Big words are "prodigious terms"
Now don't they sound delicious?
They impress your teachers, confuse your parents
And make your friends suspicious.
But that's okay we'll start a trend
That soon will sweep the nation;
The hyper-linguistic polysyllabic speech association.
Great big words, I like big words.
No extra charge if it's very large, those
Great big words.
Great big words, I like big words.
Letter by letter the bigger the better
Great big words. La la la la la la la la la!
(Reiterate please!) La la la la la la la la la!
(Diminuendo.) La la la la la la la la la!
(Grand finale!) La la la la la la la la la!

RESOURCES FOR CHORAL READING

[Reading Rockets](#) Choral reading helps build students' fluency, self-confidence, and motivation. Because students are reading aloud together, students who may ordinarily feel self-conscious or nervous about reading aloud have built-in support. Information about how to do it, ideas for materials, etc.

[Choral reading broadens experiences](#) with different genres. You can choose materials that teach content area subject matter or reading content such as phonics, vocabulary, and rhyme. Through repeated reading of the text, the student becomes a more fluent reader, which allows for increased content comprehension.

[Choral reading is reading aloud in unison](#) with a whole class or group of students. After hearing the teacher read and discuss a selection, students reread the text together. Choral reading helps build students' fluency, self-confidence, vocabulary knowledge, motivation, and enjoyment of literature. Reading and rereading shared texts may have the additional benefit of building a sense of community in the classroom.

[Poems for shared, choral, paired and echo reading](#) compiled by Mary Ann Reilly, 2012 A collection of global, multicultural poetry for K-3 children to be used for shared, choral, echo, and paired reading.

ART ACTIVITY

There are many books of Aesop's Fables, [illustrated by various illustrators](#) in print. Check your local library for available copies. It might be an interesting project for students to compare various illustrators interpretations of one particular tale and then to illustrate a tale of their own choosing.
